COURSE ACTIVITIES:

Lesson Plans

The entire course is divided into “Lessons” that cover specific topics and learning objectives in the class. The Lessons are listed in the Course Outline above. Each Lesson introduces you to specific subject matter and asks you to engage in a number of activities. These may include reading, exploring the web, researching, participating in online discussions, quizzes (multiple choice, short answer, and essay questions), and assignments (written work submitted as an attached document in a “drop box”)

Each Lesson consists of:

- A Lesson Plan that outlines the content and provides detailed instructions as to any assignments
- Direct links to any Discussions, Assignments, or Quizzes that go along with that Lesson.

All the Lessons are located in the “Lessons” folder. Click on the Lessons link in the course Menu.

Online Discussions

Online discussions form the backbone of an online class. It is very important for you to participate actively and fully in these discussions. These discussions will be graded and will be available for a specified amount of time (Monday morning until Sunday night on a given week in the course). You are required to participate in these discussions following the instructions that will be provided to you in the online Lessons.

Grading of the online discussions will be done in accordance to this grading rubric:

Criteria	Levels of Achievement		
	Non Performance	Needs Improvement	Meets Expectations
Main Post	0 Points No participation or main post does not address the prompt in the instructions	20 Points Main post is present but does not go into sufficient depth, is missing particular components, or simply repeats what others have already posted...when applicable, facts are not substantiated with a reference.	40 Points Main post adds substance to the discussion and meets all the requirements of the prompt in the instructions...when applicable, facts are substantiated with a reference.
Reply Post	0 Points No participation or response posts are surface and do not contribute to the discussion	20 Points Does not meet the total requirement for the number of response postings	40 Points Reply posts exist in the expected number and quality
Mechanics	0 Points No participation or post is written with unacceptable spelling, grammar, and/or syntax errors	10 Points Errors in mechanics are minor, but are somewhat distracting from the message	20 Points No substantial errors in spelling, grammar, and/or syntax

You are, of course, encouraged to post many times through the week. You are also encouraged to post EARLY in the week so that you can benefit from others' responses to your post and so that others may benefit from your responses).

Lesson Quizzes

These quizzes will consist of questions related to activities I assign in the class, the content of the discussions, or information you gather from research or from your interview (see below).

Within each Lesson outlined you will be provided with a lists of ALL the questions in the specific quiz. You should prepare your answers ahead of time and then enter these answers into the appropriate online quiz.

Quizzes must be completed by the end of the week in which they are assigned. You may be able to work ahead on some of these quizzes as well.

Extensions on the due dates for Quizzes may be allowed with sufficient reason; however, I reserve the judgment to not grant an extension. If you anticipate needing extra time it is best to get in touch with me PRIOR to the due date.

MHRT/C Portfolio

This section of the course is under development. Assignments specific to the MHRT/C expectations for the class will be placed in here. For grading purposes they will be included in with the Lesson Quizzes.

These specific assignments, however, provide you the opportunity to document your own proficiency in the skills and knowledge to be an MHRT/C. Each will provide you an opportunity to download your work and begin to create a "Portfolio" representing your learning specific to the MHRT/C.

Special Assignments

The following assignments are those that have been incorporated into this class to not only teach you course content, but to also enable you to demonstrate learning associated with the KVCC General Education Outcomes. (See the section on General Education Outcomes at the beginning of this syllabus)

- Quantitative Reasoning – Public Service Announcement Paper
- Creative Thinking – Public Service Announcement Presentation

It is critical that you review the information I have provided for each of these assignments in the course website. While the assignments are not particularly complicated, they are certainly complex, requiring planning and time management to complete them by their due dates.

GRADING:

Grading for the course will be accomplished in the following manner (students must have grades in ALL aspects of the class in order to pass the class):

1. Online Discussions	25 %
2. Lesson Quizzes/Assignments	50 %
3. Special Assignments	25 %

GRADING SCALE:

Letter Grades---Based on a final grade scale of 0-100, the following letter grades will be assigned:

95-100	A
90-94	A-
87-89	B+
83-86	B
80-82	B-
77-79	C+
73-76	C
Below 73	F

Please note that I will not be giving grades below a C. The rationale to this is that students who do not master more than 72% of the material in this class are not prepared to meet the expectations of future classes or programs that require this course. It simply means that you have not learned enough material to really say that you have “passed” the class.

Students who make arrangements for submitting work after the course is completed will be given a letter grade reflecting the work they HAVE done. I will not be submitting grades of “I” or “Incomplete”. When the student has completed the work that is missing I will then change the final grade accordingly. Considering the structure of this class I anticipate that I will be rarely making these sorts of accommodations and they will only be made under extreme circumstances...do not assume that a request for an incomplete will be approved

ATTENDANCE POLICY:
