COURSE DESCRIPTION:

Case management is a process that is currently receiving increasing attention in a variety of mental health, medical, and social service settings. It is a method of intervention, which focuses simultaneously on the fragmentation within the consumer as well as fragmentation within the network of service delivery. Building upon an understanding of the social systems model, this course examines the various approaches to case management in a range of settings. Content areas address: history and basis, stages of engagement, assessment, planning, implementation, disengagement, evaluation, advocacy, and organizational supports.

COURSE OBJECTIVES:

Upon successful completion of this course, the student should be able to:

1. Discuss the philosophy, purpose, and types of case management systems.
2. Describe implementation of case management in a range of service systems.
3. Assess resources and impediments of consumer needs and social service systems;
4. Write appropriate plans and goals that are clear, concise, specific, and measurable;
5. Describe the relationship between the case manager's role and the other service providers and be able to identify potential problem areas.
6. Explain the basic concepts of case management and teamwork.
7. Describe the role and multiple purposes of evaluation in the case management process.

COURSE ACTIVITIES:

Lesson Plans

The entire course is divided into “Lessons” that cover specific topics and learning objectives in the class. The Lessons are listed in the Course Outline above. Each Lesson introduces you to specific subject matter and asks you to engage in a number of activities. These may include reading, exploring the web, researching, participating in online discussions, quizzes (multiple choice, short answer, and essay questions), and assignments (written work submitted as an attached document in a “drop box”)

Each Lesson consists of:

- A Lesson Plan that outlines the content and provides detailed instructions as to any assignments

- Direct links to any Discussions, Assignments, or Quizzes that go along with that Lesson.

All the Lessons are located in the “Lessons” folder. Click on the Lessons link in the course Menu.

Attendance

Attendance is graded very simply in this class, either you are there (score = 100) or you are not (score = 0). I will be taking attendance each session we meet and I will simply average all these scores together to formulate this part of your grade.

Attendance in this class is critical as we will be going over Lesson material pertinent to you completing the Lesson Quizzes...we will also be doing in-class activities to help facilitate your learning of the material.

Please review the online document titled “Course Expectations and Policies”

Lesson Quizzes/Assignments

These quizzes will consist of questions related to activities I assign in the class, the content of the discussions, or information you gather from research or from your interview (see below).

Within each Lesson outlined you will be provided with a list of ALL the questions in the specific quiz. You should prepare your answers ahead of time and then enter these answers into the appropriate online quiz.

Quizzes must be completed by the end of the week in which they are assigned. You may be able to work ahead on some of these quizzes as well.

Assignments require that you write a paper or document of some sort and submit a copy of that document to a drop box. Every paper must have a title page and you must submit your papers in either MS Word or PDF format.

Details on the Lesson Quizzes and Assignments can be found in the Lesson plans.

Extensions on the due dates for Quizzes/Assignments may be allowed with sufficient reason; however, I reserve the judgment to not grant an extension. If you anticipate needing extra time it is best to get in touch with me PRIOR to the due date.

MHRT/C Portfolio

This section of the course is under development. Assignments specific to the MHRT/C expectations for the class will be placed in here. For grading purposes they will be included in with the Lesson Quizzes.

These specific assignments, however, provide you the opportunity to document your own proficiency in the skills and knowledge to be an MHRT/C. Each will provide you an opportunity to download your work and begin to create a “Portfolio” representing your learning specific to the MHRT/C.

Special Assignments

The following assignments are those that have been incorporated into this class to not only teach you course content, but to also enable you to demonstrate learning associated with the KVCC General Education Outcomes. (See the section on General Education Outcomes at the beginning of this syllabus)

- Oral Communication – Article Presentation

- Problem Solving – Community Outreach Project

It is critical that you review the information I have provided for each of these assignments in the course website. While the assignments are not particularly complicated, they are certainly complex, requiring planning and time management to complete them by their due dates.

GRADING:

There are three components to your final grade for this course:

Attendance	35%
Lesson Quizzes/Assignments	35%
Article Presentation	10%
Community Outreach Project	20%

GRADING SCALE:

Letter Grades---Based on a final grade scale of 0-100, the following letter grades will be assigned:

95-100	A
90-94	A-
87-89	B+
83-86	B
80-82	B-
77-79	C+
73-76	C
Below 73	F

Please note that I will not be giving grades below a C. The rationale to this is that students who do not master more than 72% of the material in this class are not prepared to meet the expectations of future classes or programs that require this course. It simply means that you have not learned enough material to really say that you have “passed” the class.

Students who make arrangements for submitting work after the course is completed will be given a letter grade reflecting the work they HAVE done. I will not be submitting grades of “I” or “Incomplete”. When the student has completed the work that is missing I will then change the final grade accordingly. Considering the structure of this class I anticipate that I will be rarely making these sorts of accommodations and they will only be made under extreme circumstances...do not assume that a request for an incomplete will be approved.
