COURSE ACTIVITIES:

Lesson Plans

The entire course is divided into “Lessons” that cover specific topics and learning objectives in the class. The Lessons are listed in the Course Outline above. Each Lesson is there to supplement the classroom learning we are engaged in. The activities may include reading, exploring the web, researching, completing quizzes (multiple choice, short answer, and essay questions), and assignments (written work submitted as an attached document in a “drop box”). All the Lessons are located in the “Lesson” folder in Blackboard. Click on the link and review the contents.

Each Lesson consists of:

- A Lesson Plan that outlines the content and provides detailed instructions as to any assignments
- Direct links to any Discussions, Assignments, or Quizzes that go along with that Lesson.

Online Discussions

Online discussions form the backbone of an online class. It is very important for you to participate actively and fully in these discussions. These discussions will be graded and will be available for a specified amount of time (Monday morning until Sunday night on a given week in the course). You are required to participate in these discussions following the instructions that will be provided to you in the online Lessons. Within Blackboard you will find a rubric which outlines how your posts will be graded.

You are, of course, encouraged to post many times through the week. You are also encouraged to post EARLY in the week so that you can benefit from others’ responses to your post and so that others may benefit from your responses). Please review the online document titled “Course Expectations and Policies”.

Lesson Quizzes and Assignments

These quizzes and assignments will consist of questions and activities related to the readings, content provided online, through the class lectures, supplemental materials, information you gather from research, and/or information from other sources.

Within each Lesson outlined you will be provided with a lists of ALL the questions in the specific quiz and all of the instructions for the assignment. You should prepare your quiz answers and assignment products ahead of time and then enter these answers into the appropriate online quiz or deposit the product into the provided online drop box.

Quizzes and assignments must be completed by due dates indicated. You may be able to work ahead on some

of these quizzes and assignments as well.

Extensions on the due dates for Quizzes and Assignments may be allowed with sufficient reason; however, I reserve the judgment to not grant an extension. If you anticipate needing extra time it is best to get in touch with me PRIOR to the due date.

Special Assignments

The following assignments are those that have been incorporated into this class to not only teach you course content, but to also enable you to demonstrate learning associated with the KVCC General Education Outcomes.

- Quantitative Reasoning – Public Service Announcement Paper
- Creative Thinking – Public Service Announcement Presentation

It is critical that you review the information I have provided for each of these assignments in Blackboard. While the assignments are not particularly complicated, they are certainly complex, requiring planning and time management to complete them by their due dates.

GRADING:

Grading for the course will be accomplished in the following manner (students must have grades in ALL aspects of the class in order to pass the class):

1. Attendance & Discussions	25%
2. Lesson Quizzes & Assignments	50%
3. Special Assignments	<u>25%</u>
Final Grade.....	100%

GRADING SCALE:

This course follows the standard KVCC grading scale, which can be found in the KVCC College catalog. Our program needs to follow the performance standards set by the State of Maine for the MHRT/C Certification. Please note that any grade below a C will be documented as an F. The rationale to this is that students who do not master more than 72% of the material in this class are not prepared to meet the expectations of future classes or programs that require this course. It simply means that you have not learned enough material to really say that you have “passed” the class.

ATTENDANCE POLICY:

Please review the online document titled “Course Expectations and Policies” which can be found in Blackboard.

I believe that regular participation in a class is a reflection of the person’s commitment to their education. I expect each of you to be active participants in this class weekly and attendance (via discussions and other online activities) will be recorded weekly. Attendance is measured by the completion of the weekly assignments in Blackboard. If you do not complete any of the weekly assignments, you will be considered absent. Each week absences are recorded in the KV Portal (in the academic record). If a student has more than 4 absences, then he/she will automatically be either withdrawn by the instructor or will fail the class based on attendance alone.

COURSE REQUIREMENTS:

The MHRT/C is a competency-based certification. The following competencies associated with this course have been deemed by the Maine Department of Mental Health Services as necessary to work in the field.

<http://muskie.usm.maine.edu/cfl/MHRT/2008%20Guidelines.pdf>

1. Aware of prevalence and common effects of trauma

2. Aware of screening and assessment strategies for trauma
3. Aware of stages of recovery for survivors of trauma
4. Knowledgeable about resources to assist in trauma recovery process
5. Aware of the need to evaluate effectiveness of personal practice
6. Understands effective use of supervision

These outcomes are assessed utilizing a specific set of assignments standardized within the context of the course.

INSTRUCTOR POLICIES:

Communication and regular attendance in this class is key to your success. Feel free to email me anytime with questions or concerns: bcole@kvcc.me.edu.
